

2025 Annual Impact Report

Every child deserves a place to feel safe

Sunshine on a Ranney Day
builds wheelchair-accessible
bathrooms, dream bedrooms,
and in-home therapy rooms for
children with special needs and
longterm illnesses, at no cost to
their families.

The year in review

2025 showed us what is possible when compassion, generosity, and community come together.

At Sunshine on a Ranney Day, every makeover begins with a family, a need, and a vision for a better life at home. In 2025, thanks to our generous donors, volunteers, partners, and friends, we completed 9 life-changing home makeovers, creating spaces filled with comfort, accessibility, dignity, and hope.

In 2025, we were honored to work alongside NBA star **Trae Young**, formerly of the **Atlanta Hawks**, to create a special makeover for Amari. His story was featured nationally on **NBC Nightly News with Tom Llamas** just three days before Christmas, highlighting what is possible when compassionate people come together.

We also expanded the way we serve families through a new partnership with **Walk Your Plans Atlanta**, giving families a hands-on way to experience their renovation plans before construction begins. This collaboration helps ensure that every family can visualize and customize changes to best meet their unique needs, leading to more successful and meaningful outcomes.

Our selection as a **Target Circle** nonprofit partner has connected us with a wider community of supporters, while support from the **Georgia Power 46th Annual Transmission Construction Fall Scramble** has provided vital resources to serve more families. Together, these partnerships amplify our mission, allowing us to reach and impact even more families in need.

As we look ahead to 2026, we are excited to continue saying “yes” to more families, building new partnerships, and expanding our reach. We will also began a new community project at **Children’s Development Academy**, a nonprofit preschool in Roswell serving young children and families in need. Through this project, SOARD will extend its impact beyond individual homes and into a space where hundreds of children can learn, grow, and thrive for years to come.

To every donor, partner, sponsor, volunteer, and friend who made this year possible: thank you. Your generosity opens doors, changes lives, and reminds families that they are not alone. As we continue this work, we invite you to join us, support our mission, and help create more spaces where children and families feel safe, supported, and loved.

Amari

Amari was hit head-on by a wrong-way driver on his way to school, leaving him paralyzed and without his right leg. Weeks after he came home from the hospital, Sunshine on a Ranney Day stepped in, with the generous support of the **Trae Young Family Foundation**, and design expertise of **Crosby Design Group**, to create a new accessible bedroom and bathroom to support Amari's recovery, independence, and comfort at home.

Emery lives with multiple rare conditions affecting her brain and body, including Rubinstein-Taybi Syndrome, that make her extremely sensitive to the sun. With the financial support of **Gas South**, help of amazing businesses in the decking and outdoor industry, and the design assistance of **Copper Sky Design**, SOARD built her a safe, shaded outdoor therapy deck, giving her the freedom to play, explore, and enjoy fresh air safely at home.

Watch Emery's reveal video, learn more about her makeover, and see her additional sponsors.

Cayden

Cayden was born with congenital scoliosis, had a leg amputated and was later paralyzed after a stroke during back surgery. With support from **Jackson Healthcare**, SOARD built him a fully accessible bathroom, lovingly designed just for him by **B Noelle Design**.

"Bathing, showering was a struggle. I had to pick him up myself... It will give him some independence back, without having to call mom and dad to get him in and out of the bathroom."

- Cayden's Dad, Jason

Watch Cayden's reveal video, learn more about his makeover, and see his additional sponsors.

Harper

Harper has Pitt-Hopkins Syndrome, a rare genetic disorder affecting mobility and development. With financial support from **Beazer Homes Foundation** and the **Rexel Foundation**, and design assistance from **Construction Resources' Ariana Pecoraro**, SOARD provided Harper and her family with a safe, accessible bathroom designed for lifelong care.

Watch Harper's reveal video, learn more about her makeover, and see her additional sponsors.

Dewone

Dewone suffered a stroke as a toddler leaving him non-verbal and in need of full-time care. Thanks to the financial support of **Jackson Healthcare** and design by **Ranney Blair Weidmann**, we created a safe, accessible bathroom and a bedroom padded for his many falls, improving daily life for both Dewone and his mom, Jade.

Watch Dewone's reveal video, learn more about his makeover, and see his additional sponsors.

Summer

Summer has complex medical needs as a result of cerebral palsy. Thanks to the generosity of our supporters and donors during at the end of 2024, including **Lead Coverage**, SOARD created a fully accessible bedroom and bathroom beautifully designed by **Lindsay Ellington of Randall-Paulson**, giving her and her caregivers a safe, supportive space.

Watch Summer's reveal video, learn more about her makeover, and see her additional sponsors.

"I can give her a shower by herself now, we won't need two people... It gives her everything she needs to keep her at home with her family that loves her so much and make it so much easier for her later on in life."

- Summer's Caregiver

Karter

"I think this will be a really safe place for him... On our rainy days this room will be the sunshine, for not only us but Karter as well."

- Karter's Dad, Deviear

J.M. WILKERSON
CONSTRUCTION

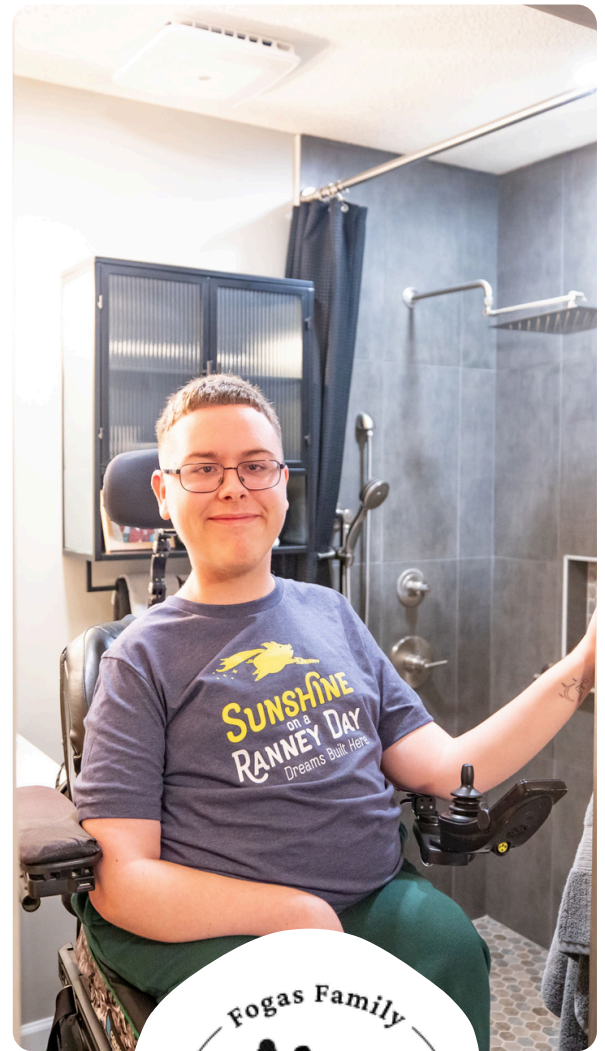

Karter is a joyful 5-year-old with autism spectrum disorder and developmental delays. He is very energetic and on the go, often eloping out the front door. Thanks to the generosity of **JM Wilkerson Construction** and the **Fogas Family Giving Trust**, SOARD created a safe, sensory-rich therapy room where he can play, regulate, and thrive while giving his family peace of mind.

Watch Karter's reveal video, learn more about his makeover, and see his additional sponsors.

Matthew

Matthew was diagnosed with spinal muscular atrophy, a condition that slowly weakens muscles, making it harder for him to move, sit, breathe, or eat. Thanks in part to the **Fogas Family Giving Trust**, SOARD built Matthew a wheelchair-accessible bathroom with access directly from his dream bedroom, both designed by **Divine Designs**, providing him with daily independence.

See Matthew's reveal pictures, learn more about his makeover, and see his additional sponsors.

Naji

Naji is a resilient 19-year-old paralyzed after a spinal cord injury. SOARD created a **custom therapy and study space** in his home, supporting his recovery, independence, and goal of returning to college.

SUNNY & RANNEY

HOME FURNISHINGS AND DECOR

This year marked an important step forward for **Sunny & Ranney**, our furniture, home goods and gift store in Roswell, GA, where every purchase supports Sunshine on a Ranney Day.

With a refreshed boutique experience, the store is helping us maximize impact and invest even more directly in life-changing renovations for children with special needs.

2025 Financials

In 2025, Sunshine on a Ranney Day raised **\$2,428,658** to support our mission of creating life-changing home makeovers for children with special needs and their families across Atlanta.

The majority of our income was invested in mission-focused work, including our core makeover programs and the fundraising efforts that make these projects possible.

Because of generous donor support and careful financial stewardship, we ended the year in a strong position, allowing us to begin new makeovers immediately in 2026.

We'd like to thank all our 2025 donors for their generous support.

This report recognizes the sponsors, partners, and major supporters whose gifts and in-kind contributions helped make this year's featured projects possible. They represent just one part of the generous community behind this work, and we are deeply grateful to every individual, family, donor, volunteer, vendor, event guest, and friend of the mission whose generosity helped create life-changing spaces for the families we serve.

Real Floors Commercial
Director of Business Development

"From the moment we met the team, I was filled with hope. One of the hardest battles for a parent caregiver is creating a world where their child has equal access. It's not our children who are the burden – it's the constant struggle to make spaces accessible for them. That's why finding people who actively run towards these challenges, ready to help is so life changing.

Sunshine on a Ranney Day has been that for us. This amazing team along with the many sponsors who made it all possible, **transformed our battleground into a haven.** To all of the team, the sponsors, and every single person involved in making it happen, you have changed our lives. Thank you. "

- Emery's Mom, Anna
